

AN AIRCRAFT INNER TUBE

***TO MAXIMIZE AIRTIME
TO MINIMIZE DOWNTIME***

*MICHELIN® AIRSTOP®
AIRCRAFT INNER TUBE*

RIGHT TUBE, RIGHT TIRE, RIGHT SIZED, RIGHT CHOICE

Inner tube failure can potentially lead to tire failure, which means your tire is only as good as the tube inside. MICHELIN® AIRSTOP® “right-sized” tubes are designed to provide an outstanding fit between the tube and the contour of the tire casing cavity. This optimal tube and tire fit reduces the possibility of creases, folds and air loss, resulting in a more reliable, longer lasting tire and tube combination

MICHELIN® AIRSTOP® TUBE

EXCELLENT AIR RETENTION

Exclusive Michelin butyl rubber compound offers outstanding air retention properties

HIGHLY RELIABLE AND EASY TO INSTALL

« Right sized » optimal fit between the tube and the tire casing

BUILT-IN BALANCE

Unique tube design assists in achieving overall wheel assembly balance
